Subject: Fwd: 2008 Survey at Gold King Mine Portal and Dump
Gold King 7 Topo.dwg

Hi EPA OSCs,

Here is the 2008 gold King mine survey info, it needs to be corrected do to different datums. They have requested the LIDAR we had done to sync them. Can I get a copy of that to forward on?

Thanks,
Elliott

Hi Elliott,

Attached is our 2007 topo of the Gold King 7 portal. It will be on a local grid. If you could send us your LIDAR topo we should be able to index the two topo's. If you have any questions please don't hesitate to contact us.

Thanks
Ken

Hi Ken,

I forward the email I sent to your email account per our conversation. Please forward the 2008 survey to this email address, I will work on finding the Lidar survey conducted this

year.

Thanks,
Elliott

Subject: 2008 Survey at Gold King Mine Portal and Dump

Hi Ken,

My name is Elliott Petri, I am working with the EPA at the Gold King Mine. We were told there may be a 2008 survey of the Mine Adit and surrounding area and that you could possibly provide that information to us. Please feel free to call or email me if this, or is not, the case. If you call 303-954-4719 it is the Communications trailer on site and you can reach me or a coast guard strike team member who can relay me a message. I will be returning to Denver later this weekend and my cell phone is another option 719-216-2754.

Thank you in advance for your assistance,
Elliott

Subject: 2008 topographical survey of the Gold King Mine portal and mine dump

Hello Steve, Chris
this data may be of interest to you. via San Juan County assessor
thanks
Jim

In 2008 Schaaf did a thorough topographic survey of the portal and mine dump that blew out, including surrounding adits on the Gold King.

Seems like EPA would want to access that to get a detailed picture of volume of dump material that went downstream; plus what the whole thing looked like prior.
